

Ritika Puri

Indore, Madhya Pradesh / India | +91 8770320550 | ritikapuri2002@gmail.com | <https://www.linkedin.com/in/ritikapuri05>

SUMMARY

A self-motivated and detail-oriented engineering graduate with a strong foundation in technical concepts and problem-solving, eager to contribute to impactful projects and grow in a dynamic organization.

TECHINICAL SKILLS

Languages: Java, Python, MySQL, HTML5, CSS, JavaScript

Cybersecurity Concepts: Network Security, IP Addressing (IPv4/IPv6), VPNs, Firewalls, IDS/IPS, Basic Linux Security

Tools & Platforms: GitHub, VS Code, Jupyter Notebook, TryHackMe

Core Competencies: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Cloud Computing, Networking (TCP/IP, DNS, DHCP)

EDUCATION

Medi-Caps University, Indore B-Tech: Computer Science Engineering: CGPA:8.14	2021-2025
South Indian Cultural Association School No.2, Indore Senior Secondary – Class 12 th , CBSE: Percentage: 80.20%	2021
South Indian Cultural Association School No.2, Indore Secondary – Class 10 th , CBSE: Percentage: 73.50%	2019

PROJECTS

Secure Image Encryption-using AES and SHA-256: “A Hybrid Approach”

Key skills: Java, AES, SHA-256, Cryptography

- Image encryption using AES (Advanced Encryption Standard) involves converting the image data into ciphertext using a symmetric key. SHA-256 (Secure Hash Algorithm 256-bit) is used to generate a unique hash of the original image, ensuring integrity and authenticity. Together, they provide secure and verifiable image encryption and decryption.
- The significance of using AES for image encryption and SHA-256 for hashing lies in their combined ability to ensure data confidentiality, integrity, and authenticity. AES secures the image from unauthorized access, while SHA-256 verifies that the image has not been tampered with, offering robust protection in digital communications.

Network Security Simulation using Cisco Packet Tracer

- Designed a simulated enterprise network with basic firewall rules and VLAN segmentation.
- Configured routers and switches using CLI.

CERTIFICATIONS

AWS Academy Graduate - AWS Academy Cloud foundation and Architecting

"Learning Python: The Complete Python Programming Course"

Cisco Introduction to Cybersecurity- In progress (SkillsforAll)
