## EXPERIENCE

---

Medoc Health Care Pvt Ltd

Jan 2025-April 2025

Cloud Intern

- Assisted in deployment and monitoring of applications on **AWS (EC2, S3, S3, IAM, CloudWatch)**.
- Documented workflows, created internal knowledge guides, and maintained Confluence-style documentation.
- Collaborated with cross-functional teams in **daily stand-ups and sprint planning (Agile/Scrum)**.
- Used **Jira** for tracking tasks, bug reporting, and backlog management.
- Gained hands-on exposure to **cloud operations**, project tracking, and **agile collaboration**.

## PROJECTS

---

### Insurance Claims Analytic

**Key skills: Python, Pandas, Jupyter Notebook**

- Analyzed **10,000+** anonymized insurance claims from healthcare datasets to identify patterns, trends, and fraud indicators.
- Achieved **95% data cleaning** accuracy using **Pandas**; handled missing data, duplicates, and outliers for better model inputs.
- Practiced detecting anomalies, exploring claim trends, and visualizing insights to simulate business reporting use cases.

### Sales Performance Dashboard

**Tools: Power BI, Excel, Power Query, DAX**

- Built an interactive dashboard using **Power BI** based on publicly available retail sales data
- Cleaned and transformed sales records using **Power Query** and applied **DAX** formulas to create KPIs like Total Sales, Average Revenue per Region, and Product Category Breakdown.
- Simulated how automated reports could replace repetitive Excel tasks and save **4–5 hours/week** of manual analysis time.
